

SCIENCE SCENARIO

Directions: Use the information presented on pages 24 and 25 to answer questions 19 through 22.

Cloud Study

As part of a school project, a student records the types of clouds observed in the sky near the student's home for five days. These data are shown in the table below.

Types of Clouds

Day	Observations
Monday	wispy clouds that curl in thin streams
Tuesday	puffy clouds that are mostly small and move slowly through the sky
Wednesday	a layer of light grayish cloud that covers the entire sky
Thursday	thin, wispy clouds that curl in thin streams
Friday	very tall, puffy gray clouds that move quickly across the sky
